

Amphulapcha Pass Packages

TRIP OVERVIEW

Amphu Lapcha Pass (5,845 meters) is one of the most thrilling and remote high passes in the Himalayas, connecting the Honku Valley (near Mera Peak) with the Imja Valley (Chhukung/Everest region). Our Amphu Lapcha Pass Package is designed for experienced trekkers and climbers looking for a challenging yet unforgettable journey through untouched alpine terrain.

Starting from Khare, your base at Hotel Mountain View, the trek takes you across stunning glaciers, rugged passes, and serene alpine valleys. This pass requires the use of ropes, crampons, and basic mountaineering skills, making it perfect for those looking to extend their Mera Peak expedition or explore a more technical route into the Everest region.
